

# ACKNOWLEDGEMENTS

---

First and foremost, this curriculum would not have been possible without the incredible generosity of the [Alabama State Department of Agriculture & Industries](#) and [Blue Cross and Blue Shield's The Caring Foundation](#), who funded this project. We are incredibly thankful for their generosity and their support of our pursuit to put a garden in every school in Alabama.

Along the way, this curriculum was created, enhanced, and made possible by an incredible team of people. To each and every one of you – we are indebted!

To our [Focus Group](#), who reviewed every lesson and added their thoughtful comments and feedback; you have truly helped to make every lesson the best it can be. The Focus Group included: Kantrele King, Laura Bechtel, Mary Givens, Peggy Collins, Sherita Williams, Tamra Willis, and Wanda Gellington.

To the [classroom teachers in our Gardens 2 Schools program](#) who let us pilot these lesson plans in their garden classrooms; thank you for being our Guinea pigs!

To the [Druid City Garden Project Board of Directors](#); thank you for always supporting our big ideas.

To [The University of Alabama](#), including [Dr. Caroline Boxmeyer](#); we could not do it without you. Your evaluation instruments, analytics, and data collection assistance show us how to adjust our lessons to ensure that we're making a big difference in kid's lives.

To our [contributors, graphic designers, illustrator, web developer, and editor](#); you helped us refine, tweak, and make this package the beautiful and accessible piece that it is, and did so on an ambitious timeline! Thank you all for stepping up to the plate when we needed it most. This includes: Joya Elmore, Mo Fiorella, Lindsay Turner, Eric Courchesne, Cameron Kizzire, Ally Mabry, Emily Conner, and Sylvia Parker.

Most of all, this curriculum would not have been possible without the hard work, dedication, and commitment of one of [DCGP's co-founders and author, Rashmi Grace](#). DCGP is extremely fortunate to have someone of Rashmi's expertise and skill working on this curriculum. You have shared your vision for school gardens through this curriculum and it will leave a lasting impression on teachers across our state. We hope that you are proud of how incredibly well it turned out. Thank you, Rashmi!

And finally, to [all of DCGP's supporters, teachers, principals, and volunteers](#) who help make all of our work possible; we would not be here without you. Thank you!
